

SITTERLE HOMES

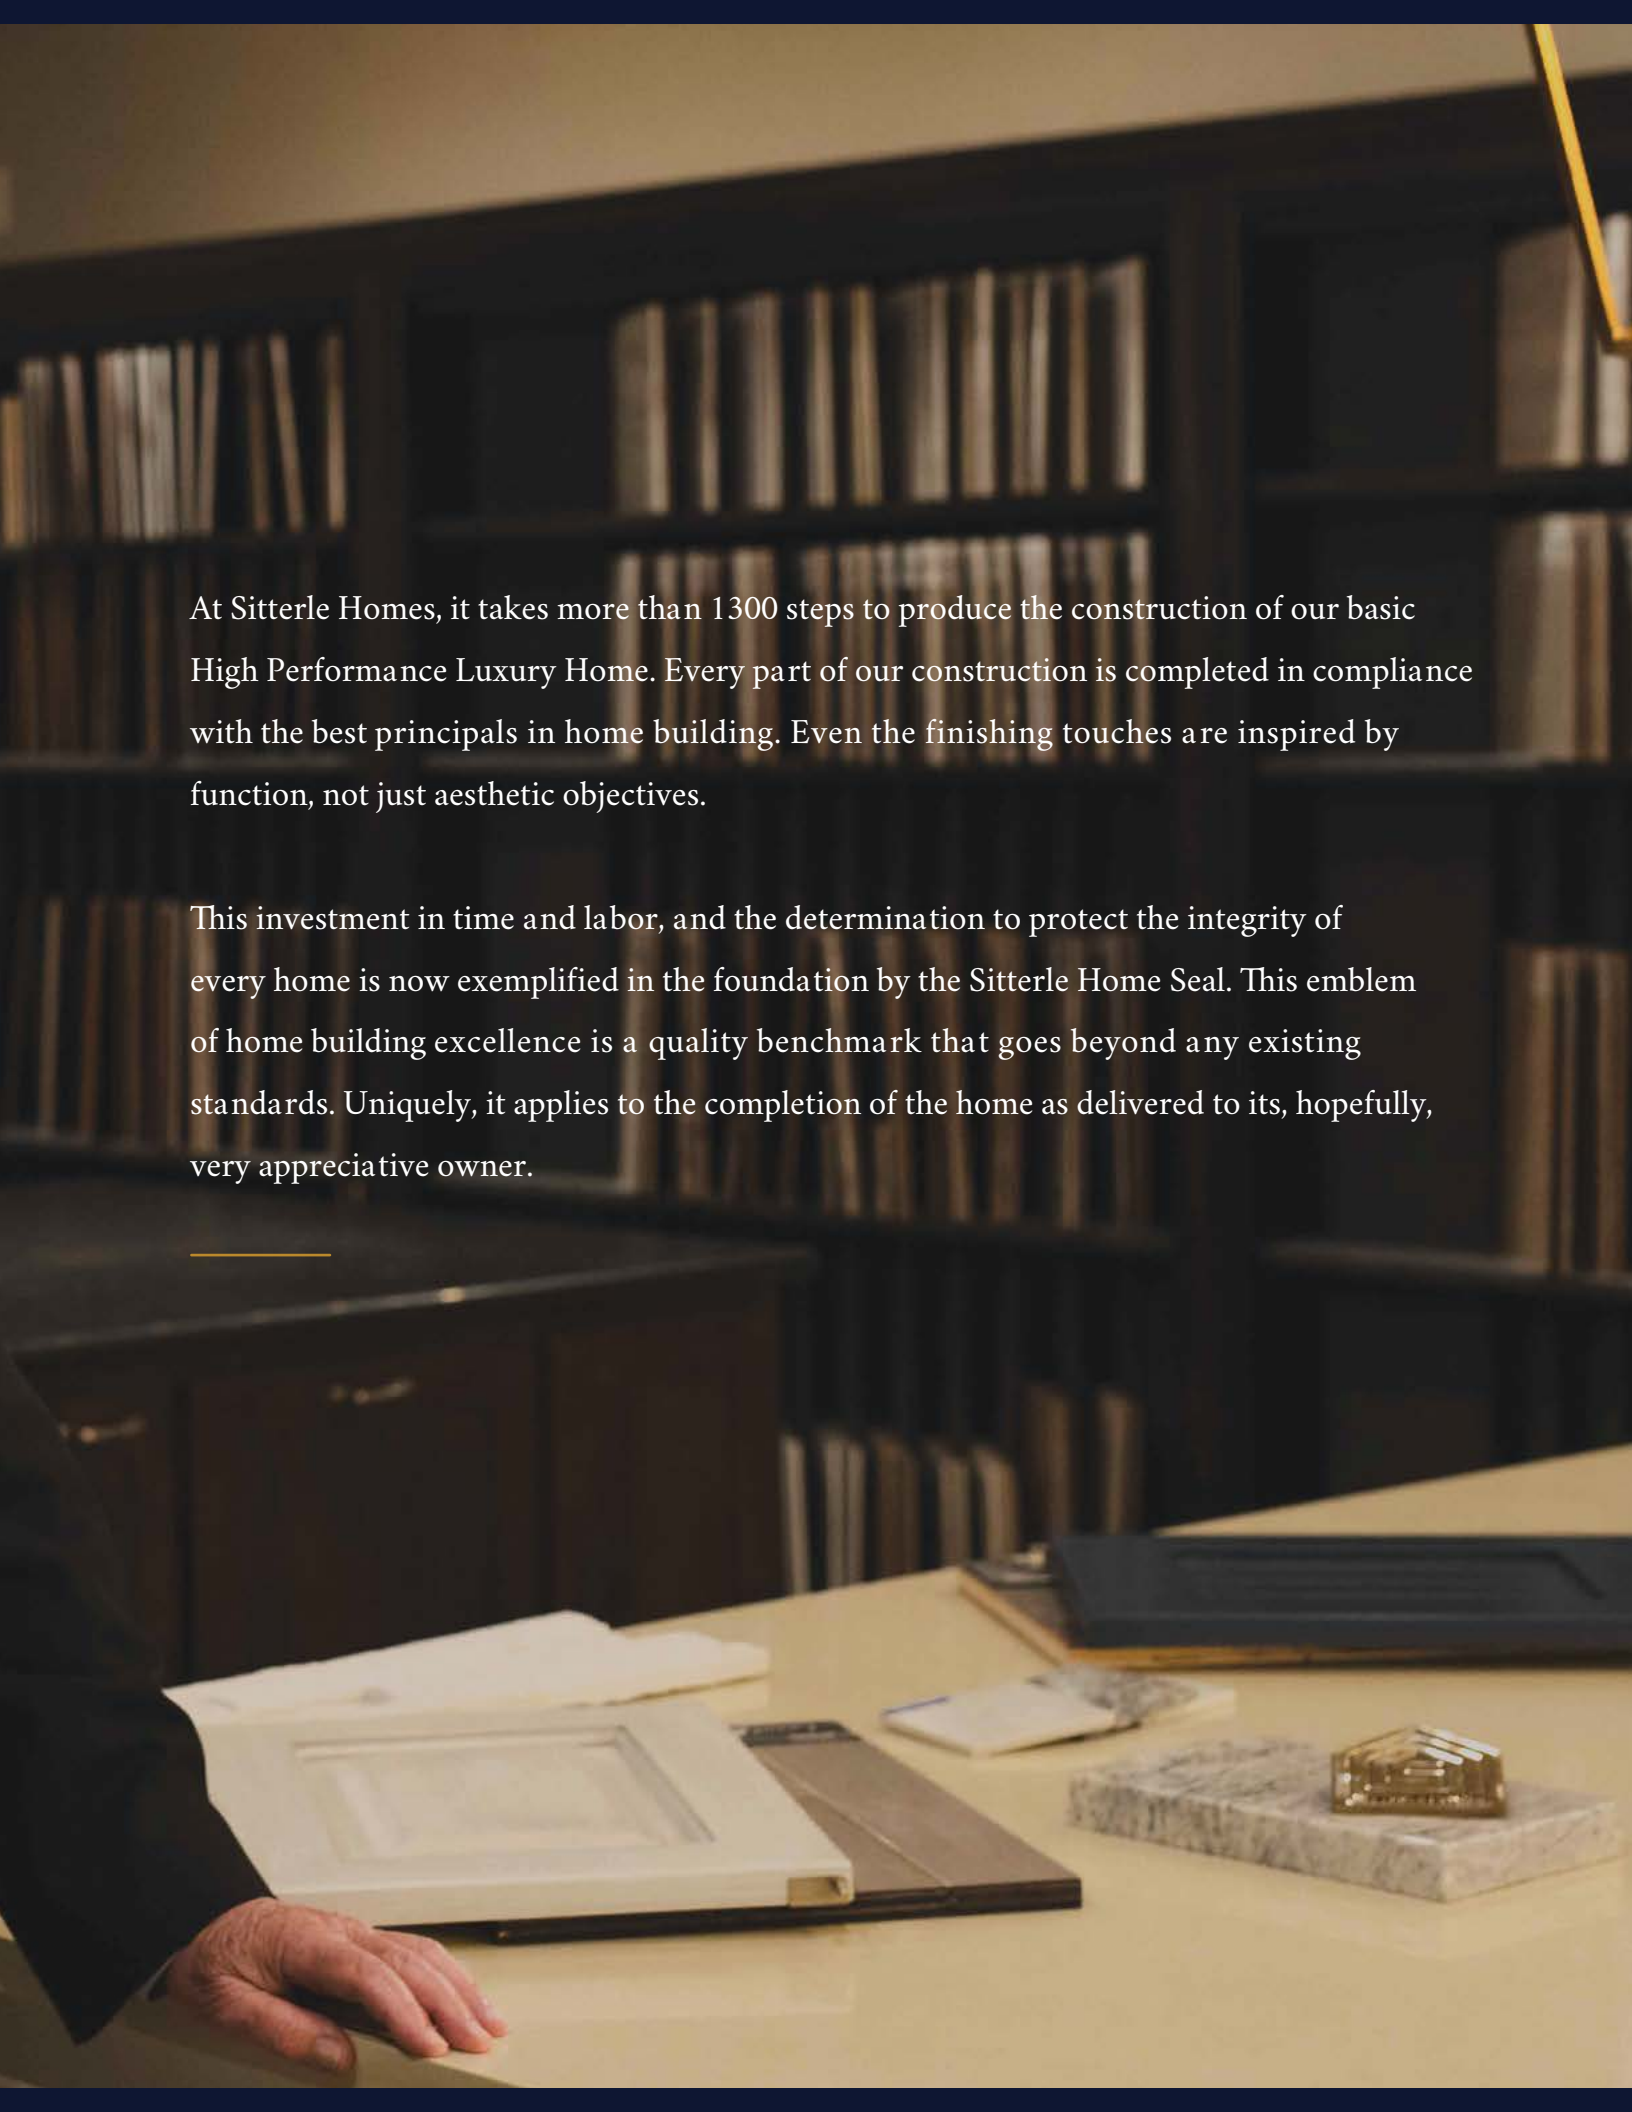

CUSTOM DIVISION

AUSTIN

A portrait of Frank Sitterle, SR, an older man with grey hair, wearing a dark suit, light blue shirt, and a red patterned tie. He is smiling slightly and looking towards the camera. The background is a workshop or factory setting with yellow machinery and lights visible.

“It takes 1300 steps to produce the construction of even our basic high performance luxury homes. As a family-owned home builder we can ensure that it never becomes 1299.”

- Frank Sitterle, SR

A person's hand is visible in the lower-left corner, resting on a light-colored wooden desk. On the desk are several architectural models, including a white rectangular one with a recessed center and a dark rectangular one. A small, clear, faceted object sits on a grey stone base. In the background, a dark wooden bookshelf is filled with books. The lighting is warm and focused on the desk area.

At Sitterle Homes, it takes more than 1300 steps to produce the construction of our basic High Performance Luxury Home. Every part of our construction is completed in compliance with the best principals in home building. Even the finishing touches are inspired by function, not just aesthetic objectives.

This investment in time and labor, and the determination to protect the integrity of every home is now exemplified in the foundation by the Sitterle Home Seal. This emblem of home building excellence is a quality benchmark that goes beyond any existing standards. Uniquely, it applies to the completion of the home as delivered to its, hopefully, very appreciative owner.

Building on a Legacy of Excellence

Sitterle Homes is a premier Texas homebuilder with a focus on creating long-lasting, high quality homes and communities across San Antonio, Austin and Houston.

Founded in 1964, the Sitterle Homes reputation has been earned by building superior quality homes with nationally recognized customer satisfaction throughout San Antonio, Austin and Houston. This reputation extends to our Custom Division where Sitterle Homes will build from our extensive in-house line up, a custom plan brought to us or a plan drawn together with the assistance of one of our architectural partners.

Our custom division clients benefit from the superior buying power that Sitterle Homes is able to obtain while being able to build a home perfectly tailored to suite every need on any personally owned lot. Selecting a custom homebuilder that has been in business for over 50 years provides the security that you have a dedicated partner to deliver your vision while exceeding your expectations!

Near the front door of every Sitterle Home, you'll find a small, hand-carved brass emblem – our logo. We've placed the Sitterle Seal of Excellence on each and every home we've built, from our first buildings in 1964 all the way through to the innovative, well-designed communities we create today.

We believe in the work we do, the craftsmanship, expertise and excellence that goes into each home. And, we believe in it so deeply that we want to leave a lasting mark on it, a symbol of the timelessness and the quality of the spaces we've built together.

When you choose a Sitterle Home, we want you to make it thoroughly your own, so you feel welcomed, relaxed and joyous every time you enter. That's why Sitterle Homes allows – and encourages – customizations to our designs until you're happy with the dwelling and lifestyle you've created.

We build beautiful homes with unparalleled attention to detail and quality. And, beyond beauty, Sitterle Homes are solid and dependable through and through – because we put just as much emphasis on what you can't see as what you can. Building high-quality homes that fit your lifestyle. That's what Sitterle Homes has been doing for our fellow Texans since 1964, and that's what we're ready to do for you.
