

SITTERLE HOMES

CUSTOM DIVISION

HOUSTON

A middle-aged man with short, light-colored hair, wearing a dark suit, light blue shirt, and red patterned tie, stands in a workshop. He is smiling slightly and looking directly at the camera. The background shows shelves with various tools and equipment, and a bookshelf to the right. The lighting is warm and focused on the man.

“It takes 1300 steps to produce the construction of even our basic high performance luxury homes. As a family-owned home builder we can ensure that it never becomes 1299.”

- Frank Sitterle, SR

A close-up photograph of a person's hand resting on a light-colored desk. On the desk are several items: a set of architectural blueprints, a dark blue folder, a small notepad, and a Sitterle Home Seal. The seal is a gold-colored emblem on a rectangular marble base. In the background, there is a dark wood bookshelf filled with books and a modern gold-colored geometric light fixture.

At Sitterle Homes, it takes more than 1300 steps to produce the construction of our basic High Performance Luxury Home. Every part of our construction is completed in compliance with the best principals in home building. Even the finishing touches are inspired by function, not just aesthetic objectives.

This investment in time and labor, and the determination to protect the integrity of every home is now exemplified in the foundation by the Sitterle Home Seal. This emblem of home building excellence is a quality benchmark that goes beyond any existing standards. Uniquely, it applies to the completion of the home as delivered to its, hopefully, very appreciative owner.

THE TYPICAL CUSTOM HOME EXPERIENCE INCLUDES THE FOLLOWING:

Step 1: CONSULTATION

Let our Custom Construction Team know your goals for your new home.
What features are on your wish list?
What is your estimated budget?
Where is your lot or where would you like to build?
Don't have a lot just yet?
We will even help you find one!

Step 2: SITE EVALUATION

Our Custom Construction Team will meet you on your land to gain an understanding of your vision while assessing your lot. Depending on the desired floor plan, we will provide a rough walk through and bring any construction concerns to light. HOA requirements, permits, utilities and site conditions will be discussed for your lot.

Step 3: FLOORPLAN/REDLINING

After establishing your desired features and budget, it's time to find a floorplan that works for you! In addition to our extensive floorplan lineup that can be modified to suite your needs, we can also offer one of our architectural designers to **create a custom plan from scratch.**

Step 4: ESTIMATING

Our Custom Construction Team will provide cost estimates for site-specific items in addition to plan related details. We will work with you to coordinate all filings and approvals for financing which must be in place prior to commencement. We will provide you with a list of preferred lenders that specialize in custom home financing and would be happy to meet with you.

Step 5: CONTRACT

Once the plan has been chosen, all features have been established and a final price has been agreed upon, we will enter into a contract.

Step 6: DESIGN SELECTIONS

Our design center has excellent options fitting all styles and budgets. In addition we have valued vendor partners throughout Houston for expanded selections. Appointments will be scheduled to review and select all options and finishes.

Step 7: CONSTRUCTION

Construction typically takes about 7 to 9 months from start to completion. We will handle soil testing, engineering, and all third party inspections. Our Custom Construction Team will provide you with a time line as well as updates as your custom home progresses! Site visits and walk throughs are as frequent as needed.

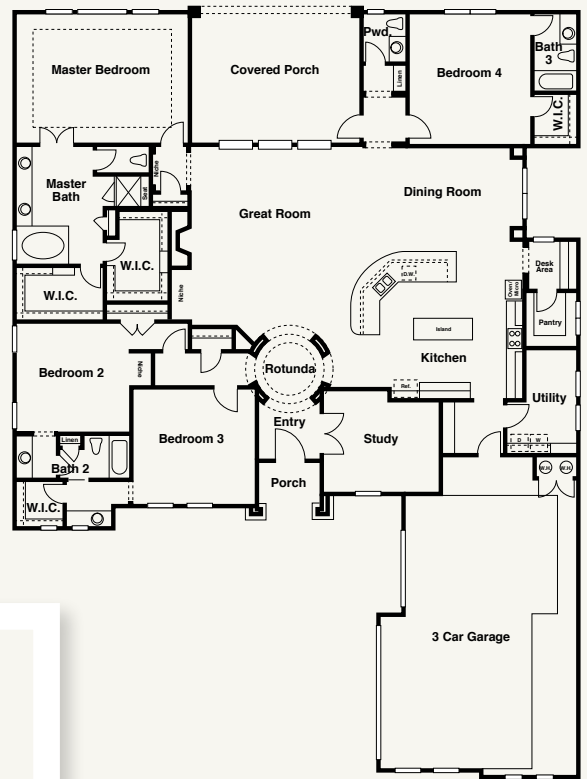

Step 8: CLOSING

Custom construction closings vary depending on your financing. Your process will be discussed at the estimating stage. Upon completion of your new Sitterle home, you will receive enrollment documents for our warranty program and the peace of mind knowing that you are protected.

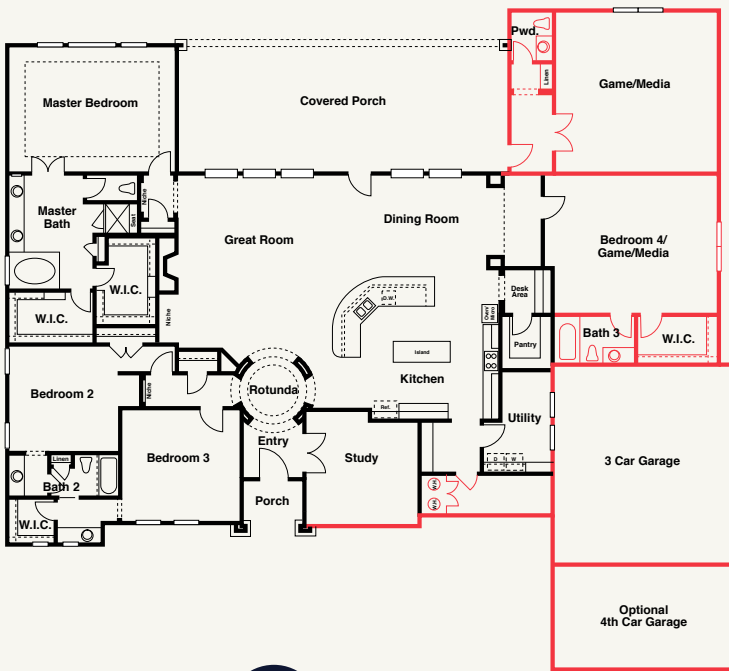

LET'S DESIGN TOGETHER

1

We can offer plans from our extensive line-up.

Calais

Modified Calais 1

2

We can modify an existing plan from our line-up to better suit your needs.

Modified Calais 2

As no two plans are alike, the Sitterle Custom Division offers the unique ability to bring your dream to life as we extract the inspirations laid out on your “wish list” – delivering your vision while exceeding your expectations! Whatever your desire, we have a path to get you *home*.

3

We can utilize our architectural design partners to draw a plan from scratch.

Custom Plan 1

4

We can build your home from custom plans that you bring to us.

DESIGN PROCESS

Our Design Studio showcases the latest design trends. We work closely with local vendors to find high quality standard materials & options suited to your specific needs. We also have numerous valued vendor partners for expanded selections & options. Our decor team specializes in offering creative, professional & budget friendly design solutions to aide in the creation of your dream home!

In the creation of your dream home, Sitterle Homes provides some of Houston's top designers to lend their years of experience and expertise to assist you in creating a distinctive space just for you and your family. They will walk you through the design process step by step, informing you of your included options and discussing any upgrades that you may want to consider. Our objective is to assist you in identifying the style and image you envision and create the environment that will be uniquely yours.

FINANCING

We have created The Sitterle Homes Preferred Lenders Group to provide you with the best loan process possible. Our mortgage consultants provide Sitterle Homes buyers with outstanding levels of service, taking the time to understand your individual situation and your goals to provide you with the best loan option. Each has a well-established relationship with Sitterle Homes,

creating an atmosphere of easy communication and efficient customer service, resulting in a smoother process for you! Because we are confident in our relationships with our consultants, we at Sitterle Homes make the entire homebuilding experience as painless as possible, and our valued partners help us to achieve that goal.
